GUIDELINE

Semi ODM and OEM be provided for your variety choices.

During Yellow part, photos will be taken for accurate checking and timeline follow will be update for bettermonitor the whole schedule.

During Red part, it will be Quality Inspection for our own or your specific requirement.Both reports will be advised.

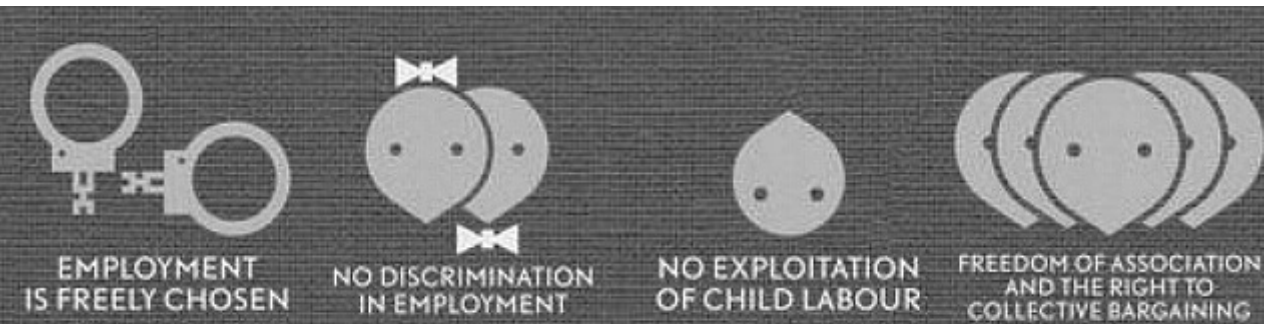

The image shows a stack of OTEX inspection reports. The reports are titled 'OTEX INSPECTION REPORT' and 'HAPPAGE / TEXTILE MEASUREMENT SHEET'. They contain various sections for data entry, including 'GENERAL INFORMATION', 'INSPECTION OVERALL RESULT SUMMARY', and 'REMARK'. The reports are organized into columns and rows, with a 'PASS/FAIL' status column and a 'REMARK' column. A large diagonal watermark 'NOT DRAFT REPORT' is visible across the stack.
